## Piecing Instructions

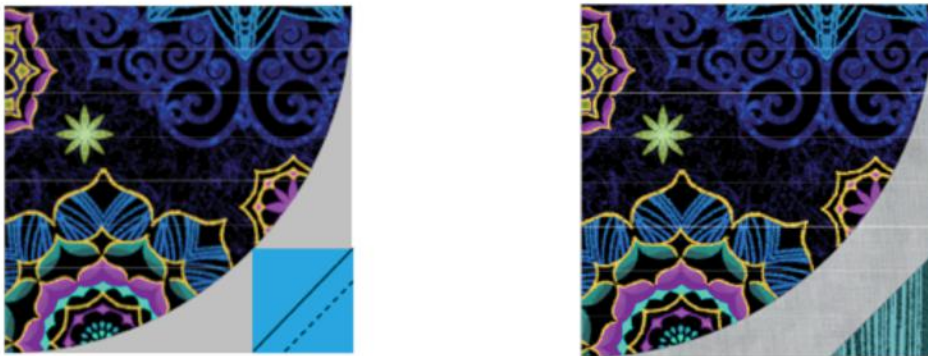

### Curved Blocks

Use your favorite curved piecing tools or methods for piecing the curved templates. You may use pins, wonder tape or any other preferred method.

Sew Template A (Fabric A) and Template B (Fabric B) together using a  $\frac{1}{4}$ " seam to create a curved edge. The two templates will create a  $5\frac{1}{2}$ " block. This is  $\frac{1}{4}$  of the interior of your block. Repeat to sew a total of 64 curved  $5\frac{1}{2}$ " blocks.

After sewing your curved blocks, you are ready to attach the diamond centers. Draw a straight line from corner to corner on the wrong side of the  $2\frac{1}{4}$  inch squares cut from Fabrics C and D. Place the square right sides together, edges aligned, on the Fabric B portion of the curved block. Sew a straight line on the drawn line from corner to corner. Trim the edge to a  $\frac{1}{4}$ " beyond your stitched seam (see dotted line below). Press out with your iron to flip the fabric to the right side.

# Kaleidoscope

Alternate Fabrics C and D as seen in the diagram below. Sew together 4 curved blocks with your diamonds attached in a four patch formation as seen below.

## Sashing Instructions

Use your 2 inch squares cut from Fabrics D and F to create HST for the corners of your sashing. Draw a line from corner to corner on the wrong side of Fabric D and place right sides together with Fabric F. Sew a 1/4" away from the drawn line on both sides. Use your rotary cutter to divide the HST by cutting on the drawn line. Trim your HST to 1 1/2 inches and press towards Fabric D. You will create a total of 64 HST.

Use 32 of your Fabric E rectangles to attach your HST. Sew one HST to each side of 32 Fabric E rectangles. Be sure that the Fabric D side of the HST is sewn to your sashing to create consistency. Press towards the rectangle.

Sew your remaining 32 Fabric E rectangles to the sides of your curved blocks. Press towards the sashing.

# Kaleidoscope

Sew the HST sashing to the tops and bottoms of your blocks as shown below.

## Border Assembly

Use your border strips from Fabrics F and G to sew one short border strip to 1 long border strip to create 4 equal border strips in each fabric.

Trim two strips from Fabric F to 4". Trim the remaining two strips from Fabric F to 50 1/2".

Trim two strips from Fabric G to 50 1/2". Trim the remaining two strips from Fabric G to 56".

## Quilt Assembly

Sew the blocks together row by row as shown below.

Attach borders 1 and 2 as shown in the diagram below. Attach Fabric F borders first, sewing on the side borders followed by the top and bottom borders. Repeat with Fabric G borders.

Create your binding using the Fabric F 2 1/2" strips.

Quilt and bind.
