They look like “Attic Windows” but there are no set-in seams! Perfect for cuddling up in front of the fire, this throw is great for the woods, or the home that wishes it was in the woods!

Fussy cut the motifs in the windows, picking your favorites.

**All seams are 1/4” unless otherwise noted. Fabric yardage is based on 40” wide.**

## NOTES:

- Don’t trim your borders to the listed length until the center of the quilt is put together and you can check if the measurements are correct. Always measure the middle of the quilt, not the sides, which can stretch while you measure.
- As you cut your pieces, put them on separate paper plates and label them. You will always know which is which then.

## Sewing Instructions:

- Begin constructing the blocks by marking the light colored 4 1/4” squares down the middle on the wrong side, diagonally, and 1/4” on each side of the center line. Fig A.
